

## **STRUCTURED LEARNING EXPERIENCE GOALS**

The student will be able to:

- Describe the structure and function of the structured learning site.
- Interact with a variety of personnel from the structured learning site.
- Understand the educational requirements for specific jobs within the structured learning site.
- Become knowledgeable regarding current practices and job opportunities within the occupation.
- Acquire key technological skills as related to the field of interest.
- Complete basic assignments or projects within the company.
- Work collaboratively with co-workers, mentor, teachers, and Structured Learning Coordinator.
- Meet with mentor on a regular basis to discuss the current projects.
- Review and update the Professional Development Plan and implement suggestions from mentor, teachers, and Structured Learning Coordinator.
- Apply skills in the completion of mentor assigned projects.
- Complete a minimum of 160 hours (100 for MSE) of on-site structured learning.
- Attend quarterly Professional Seminar sessions scheduled by the Structured Learning Coordinator.
- Complete time sheets as required and turn in weekly employer evaluations.
- Complete Reflective Learning Logs as required.
